Yes. You can place them there.

Good Afternoon Mark:

I wanted to ask you a question. We planned to place our work trailers in the wooded area behind the bowling alley. Unfortunately, the areas we identified are exhibiting elevated radiation levels. Therefore, we are unable to stage there. I believe your section of the site (The old parking lot), shows lower levels if not background readings in some areas. We will be verifying the readings. If the area is the best option we have, may we place our trailers there?

Thanks

Good Morning Mark:

How are you? I am not sure if you have been around but we are at the site. Please stop by if you have time.

Attached is the Insurance certificate from one of our contractors. I will

forward the other certificate once received. You should also receive a hard copy by mail. Please let me know if you have any questions.

Thanks

Regards,

Eric

Thanks. Do you have a separate owner address than the property address?

Great. Mark, is there a way to get me the owner name, property address/SLD today? I want to get that to my contractors ASAP. This is to protect the property owners.

Thanks

Lastly, I wanted to ensure you that while my team will be working on your property, the church will not be responsible for any injuries. What we normally do is add the property info/owner information as "additionally insured". To do this I will need the

exact property address/SBL info and exact owner information you want to be listed. Please provide this information as soon as you can.
